

AI and Moving Images

Workshop with
Jorge Caballero Ramos

Film Director and Producer at Gusano Films;
Universidad Pompeu Fabra, Barcelona.

ABOUT THE WORKSHOP

The workshop explores how (moving) images can be analyzed, classified, created, and edited using open source and artificial intelligence (AI) algorithms. Through a theoretical and practical program, workshop attendees will be able to enter into a systematic process of working with AI and images in two stages: The first stage corresponds to the generation of unfilmed images. In a world full of images, how do we re-signify the existing ones, and how do we generate the missing images? The second stage consists of analyzing and relating the images using different artificial intelligence and machine learning techniques.

PARTICIPANTS

Students of Media Studies and related areas, University of Tübingen, are welcome to participate. No previous knowledge requirements.

ENTRANCE IS FREE

DATE & TIME

04 MAY 2023

9:30 AM – 5 PM

LOCATION

University of Tübingen
Wilhelmstrasse 50 (Brechtbau)
R. 128 (Campus TV)

REGISTRATION

E-mail: anne.burkhardt@uni-tuebingen.de
